

Dear Member of Parliament _____,

I am a constituent from (city, province/territory/riding) _____, and I am concerned about climate change. I'm particularly concerned about _____

I fully support Canada's national carbon pricing policy and the 2018 Greenhouse Gas Pollution Pricing Act.

It is important to me that revenues from carbon fees are returned to citizens to protect low- and middle-income Canadians from price shocks as we transition to a clean energy economy.

I respectfully ask for further improvements:

That the federal government, as promised in the 2015 Liberal election platform, end financial subsidies to fossil fuel companies.

That the national carbon price continues to rise past 2022 to a price consistent with avoiding global warming beyond 1.5C above pre-industrial levels.

Other _____
